

## WHY DO I NEED PROFESSIONAL INDEMNITY INSURANCE AS A MEDIATOR?

Most of the work done by Mediators is based on guidance & advice including:

- Creating a cooperative environment for disputants to explain their positions
- Providing advice and feedback throughout the mediation process
- Reviewing legal documents & testimonies
- Reviewing agreements prepared during mediation
- Drafting summaries of outcomes of mediation

Any negligent advice or errors in performing your duties could lead to a lawsuit and claim by one or more of the parties involved in Mediation proceedings against the Mediator. Professional Indemnity Insurance provides essential financial protection for Mediator by covering legal defence costs & damages payable in the event of a claim.

Key exposure for Mediators:

- Providing wrong information & advice.
- Breaching privacy & confidentiality
- Bias towards one party
- Acting outside authority or the limits set
